

WELCOME!

Safety guidelines
for external persons

Your safety is important to us!

These guidelines help you to familiarize yourself with the most important safety rules and behavioral issues.

Always follow the instructions!

GENERAL SAFETY INSTRUCTIONS

Before entering our premises on foot or by car, **please register** at reception in the main office or at one of the two delivery points. **Please follow the instructions of our employees at all times!**

Always stay close to our employees during factory tours and do not leave the group.

Avoid hazardous areas such as mobile excavators, trucks during unloading or gas cutting areas and do not stand under crane loads. **Access to factory halls, facilities and social rooms is only permitted when accompanied by our employees.**

Do not touch material on the factory premises. The carrying away of company-owned material without explicit permission is forbidden.

Magnetic fields present on the site can cause **health damage to people with pacemakers and implants.**

Smoking is only permitted in **marked smoking areas. Consumption of alcohol and addictive substances is strictly prohibited.**

Taking pictures is generally forbidden, unless explicitly permitted by our employees.

Please be aware of **danger from internal transport** (fork lifts, trucks, mobile excavators, cranes, conveyors).

Access to and remaining in hazardous zones is strictly prohibited.

Please observe all **traffic signs, prohibition and information signs!**

Use the mandatory personal **safety equipment** such as:

- Safety shoes
- Reflective vest

- Hard hat

The whole company site is **video monitored.**

TRAFFIC REGULATIONS

The whole company premises are subject to the road traffic regulations (StVO) – **the speed limit** of 20 km/h may never be exceeded!

Please stay on the existing signposted traffic routes – unmarked driveways may only be used after consulting our employees.

Company-internal traffic has always priority!

Railway shunting has also priority – **ATTENTION, unguarded railway crossing!**

Please ALWAYS use the marked parking spaces!

Near the **rail tracks, in front of doors, gates, stairs, staircases, hall entrances, in the danger zone in front of the gas storage** and in the **marked hazardous areas** parking is **generally forbidden!** Do not park in halls and never leave your car unattended with the engine running!

If you have any questions, please contact the responsible employees. If nobody is available, please contact our reception in the main office, phone: +43 7412 524 85.

BEHAVIOR IN CASE OF FIRE OR EMERGENCY

When you hear the **alarm signal** (horn), leave the premises immediately! Leave the buildings through **existing escape routes** and proceed to the **assembly point**.

Qualified emergency responders assist you in case of injuries. **A defibrillator is located in the main building.**

This symbol marks the location of portable fire extinguishers.

In case of an independent **emergency call** on the premises **by mobile phone**, please inform the reception desk at +43 7412 524 85.
